

# Green Coffee Beans

*Pure at origin, our green beans carry the promise of great coffee honest, bold, and full of character.*

# Potential and Authentic

Our green beans embody potential and authentic qualities they hold the promise of exceptional flavor waiting to be unlocked by expert roasters, while preserving the true essence and unique character of their origin. This perfect balance ensures every batch delivers coffee that is genuine, distinctive, and full of promise for a remarkable cup.

# Why Choose Our Green Beans

We carefully source our green beans from trusted farms known for their sustainable and ethical practices. Each batch undergoes thorough quality checks to ensure consistency in size, moisture, and flavor profile. Our commitment to transparency means you get full traceability from farm to cup, guaranteeing authenticity and freshness.

With our premium green beans, you can confidently create exceptional coffee that highlights the unique characteristics of its origin. Partner with us for reliable supply, unmatched quality, and a passion for delivering the best coffee experience.

# Diverse Processing by Farmers

Our green beans are sourced from farmers using diverse traditional processing methods. Each method brings out unique flavors and aromas, allowing roasters to craft distinct and exceptional coffees. This variety ensures every batch carries the authentic character of its origin, delivering a rich and memorable cup.

# Natural

## Spesification

Aroma	Fruity, sweet, winey
Flavor	Fruity, floral, citrus
Acidity	Bright and vibrant
Body	Medium
Moisture	11-12%
Atitulde	1200-1700 Masl
Screen	16-18 Inch

***Fruity, vibrant, and full of character.***

Our Natural Process Arabica is sun-dried with the cherry intact, resulting in a bold cup with intense fruitiness, wine-like sweetness, and a rich body. This method brings out the most vibrant expressions of each origin perfect for roasters seeking standout flavors.

# Semi-Washed

## Spesification

Aroma	Rustic, earthy, mild sweet
Flavor	Earthy, chocolaty, nutty
Acidity	Low to medium
Body	Full and Round
Moisture	12-13%
Atitulde	1200-1600 Masl
Screen	16-18 Inch

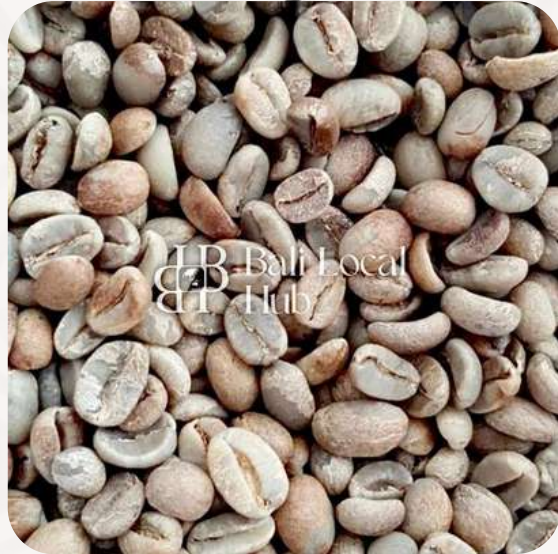

***Smooth body with sweet earthiness.***

Semi-washed Arabica offers a mellow cup with balanced acidity, mild fruitiness, and a heavier mouthfeel. This process retains some mucilage during drying, resulting in a sweet, rounded flavor ideal for blends or single-origin profiles with character and depth.

# Honey

## Spesification

Aroma	Fruity, honey-like, mild floral
Flavor	Sweet, fruity, caramel,
Acidity	Medium to bright
Body	Round, smooth
Moisture	11-12%
Atitulde	1000-1700 Masl
Screen	16-18 Inch

***Sweet, vibrant, and well-balanced.***

Our Honey Process Arabica brings out a rich sweetness with fruity notes, round body, and balanced acidity. The sticky mucilage left during drying enhances complexity a perfect choice for buyers seeking a unique cup between washed and natural.

## Note

- We offer a wide selection of coffee beans from various regions across Indonesia, including Kintamani, Gayo, Toraja and more.
- Multiple grading options are available, ranging from Grade 1 to Grade 3.
- Incoterms EXW or FOB
- Our standard packaging uses 60kg plastic sacks (warehouse standard). Custom packaging is available upon request with additional charges.
